Student

About Me

I am a passionate and detail-oriented web developer with a strong foundation in both frontend and backend technologies. I enjoy creating responsive, user-friendly websites and applications that solve real-world problems. I am always eager to learn new tools and frameworks to stay current in the ever-evolving world of web development.

SOFT SKILLS

- Creative thinking and innovation
- Strong communication skills
- Teamwork and collaboration
- Adaptability and flexibility
- Problem-solving ability
- Time management
- Critical thinking
- Empathy and emotional intelligence
- Self-motivation and continuous learning

LANGUAGE

- Bangla
- English
- Hindi
- Urdu

PROJECTS

Weather Track

- Mobile-responsive and user-friendly weather application using HTML, CSS, and JavaScript.
- Integrated a free weather API to fetch and display real-time weather data based on city input.
- Implemented features such as temperature, humidity, wind speed, and weather condition display.

Wanderlust – Travel Destination Web App

- Mobile-responsive and user-friendly using JavaScript, Node.js, Express.js, MongoDB
- Built a full-stack web app to explore, add, edit, and delete travel destinations using CRUD operations
- Developed RESTful APIs with Express.js and MongoDB for efficient data handling

Green Catalyst

- To educate users on climate solutions like Nature-Based Solutions, Circular Economy, and Technological Innovation.
- To engage the public through interactive tools, community features, and real-time environmental tracking.
- To empower users to take action via volunteer opportunities, pledges, and sustainability challenges.
